

NASHUA — Windmill International Inc. has moved its headquarters in Nashua effective 1 March 2014. The company relocated from the east side of Route 3 and its current location at 2 Robinson Road and moved to the west side of Route 3 at 12 Murphy Drive, Suite 200.

The defense contractor firm will retain its other office and operations locations. Windmill has a production facility in Hollis and has a physical presence at Hanscom Air Base in Massachusetts, where it has been providing professional and engineering services to the former Air Force Electronic Systems Center and NATO for more than 18 years. Windmill has also served as a major logistics contractor for the Transportation Security Administration since 2002.
